Director's Report – Tom Shook

Middle School Performances at large group, really happy with how groups did. Rachel and Doug did amazing work with the 8th Grade Band. Commissioned Piece worked well for them – had a nice challenge. B and got a I and Choir got a II

Advanced Choir has done some performances besides the trip – done a really nice job with the medley. Incredible how far the boys have come over the past years.

Redone the online Calendar so it is easier for people to see and can make changes anywhere as web based now.

Trip – Hats off to everyone who went on the trip. Send something to the kids – what we did was amazing – moving that many people through the crowds that often and loosing no one. Wish there was better communication about what to see in the evening at San Antonio – theater and Germany area were great. Proud of the kids! The crowd was great! The Choir did a great job at the Alamo, better performance location this time around. Very little negative from the kids.

Ice Cream Social – “I'm all good” Groupings may need revisited. Much smaller audience for the final group, then the first and second group.
